

# CARES

Companion Alert Response & Elderly Support

## Service Description:

CARES recognizes the needs of seniors goes beyond fall protection and emergency response.

CARES provides ongoing telephonic **Social Interaction, Companionship** and **Reassurance**. Today's seniors suffer from loneliness, depression, homebound concerns, financial problems, and pain management issues. Our team of caring service representatives and licensed mental health counselors offer coping resources, caregiver backup, mindfulness coaching and a friendly reassuring voice. Our daily well-being checkups can provide daily interaction and third-party notification if the senior is unreachable for a predetermined period of time.

## Product Description For Free Device:

Free Mobile Response Device with Fall Detection feature and GPS locator. Allows for mobility outside the home and throughout the entire house. Can be programmed to call and text family members, care givers or local EMS. Waterproof with up to one-year battery life. Free to retain. Functions without any service subscription.
